Tic-Tac-Toe Answers

1. a
2. True
3. b
4. a
5. b
6. True
7. True
8. False
9. a

Copy the pages and laminate them for durability, if you wish. Cut out the pictures below and use them instead of X's and O's. The first player selects a square on the Tic-Tac-Toe board and tries to answer the question. (Students may check their answers with the Answer Sheet.) If the player is correct, he or she covers that square with a picture. If the player is not correct, then the next player chooses a square. The first player to cover three squares in a row (or diagonally), wins the game.
